Consultations and Home Visits

We offer consultations by appointment at our surgeries in Hythe, Totton and Lymington throughout the day, Monday to Friday. There are also surgeries run on Saturday mornings at all three branches for post-operative checks and urgent problems.

Appointments are usually ten minutes in duration, but may be longer in some situations.

Outside working hours we offer a full emergency service at our Hythe hospital.

In consultations we will typically see a range of animals including dogs, cats, rabbits, 'small furies' and exotics. If your animal is unwell it is advisable to make an appointment with a veterinary surgeon.

You should discuss your concerns with the vet and your pet will be given a full examination. Vaccinations, blood tests, dressing changes, post-operative checks and the removal of stitches are all carried out in appointments by our fully qualified vets and nurses.

We are also able to make home visits by prior arrangement, if it is difficult to bring your pet into the surgery. However if your animal is seriously unwell or is likely to require further investigation, it is usually more appropriate to bring him or her to one of our branches or the main hospital.
